

Anti-Theft Security Units

Wall Mount Units

ScanLock™ Hook Locks

New Expandable Wire Tray™ Security Units cut theft and boost your profits.

- Anti-theft Units allow only the front-most item to be removed one-at-a-time preventing mass theft while still allowing customers to purchase a single item trouble free. Auto feed system forwards fresh product for next sale.
- Shelf mount via front rail and pushpins or pegboard mount via Trion® Quickback™ Backplates.
- Standard size units available from 5 to 12" wide, mini system from 3 to 6". Made-to-order to secure any size product.
- Units can be arranged for multiple facing displays, and families of products.
- Optional shelf-edge labeling and paddle messages for branding or cross selling.

Reduce Shrinkage Boost Profit!

Easy removal of only one item at a time prevents "sweeping" and the theft of multiple products.

Shelf-mount via front rail and pushpins or pegboard mount via Quickback™ Backplates
